Planning Background

The site is situated in a highly sustainable location adjacent to Thornbury District Centre. The adopted Unitary Development Plan does not allocate the site for any particular land use, but it is within the urban area and adjacent to a defined district centre.

The new emerging local plan allocates the site for residential development under the provisions of draft policy NE13/H, which confirms that the site would be suitable for at least 46 dwellings.

With planning permission previously having been granted for residential development on the site and based on its allocation in the emerging plan, it appears most suited to residential development. However, its adjacency to the district centre means other uses should also be supported.
